An Artery in Right Shoulder Severed and He Bled to Death. No Motive Yet Found for the Murder.

HENRY D. DEANER, of Milwaukee, Wis., brother of Conrad W. Deaner and Maggie Deaner, who reside two miles east of Gettysburg, near the Bonneauville road, was slain by an unidentified negro in the railroad station of the Indiana and Southern road at Dwight, Ill., last Saturday. Before moving to Milwaukee Mr. Deaner resided in Adams county. Mr. Deaner, who was 65 years old, served on the Milwaukee police force for twenty-five years. He was retired with a pension in 1920. He is a son of the late Michael Deaner, of Adams county. The shooting occurred while Deaner was waiting for a train to Milwaukee. He was in the waiting room talking to a friend, Peter Sujran, when two negroes approached, drew revolvers and fired. Deaner was shot in the right shoulder. An artery was severed and he bled to death. Sujran was wounded in the right thigh. The negroes fled. No motive for the crime can be found by the police.

MR. GLATFELTER'S STAND.

Samuel F. Glatfelter, Democratic nominee for Congress made quick reply to the challenge to make known his stand on the Volstead act and its enforcement. Mr. Glatfelter said: "I stand for the constitution and laws of the United States. Throughout my campaign I have made myself clear to the public. I have not equivocated. My reputation as a citizen and business man is well known."

Took First Money at Hanover Fair.

"Phantom Hale," the thoroughbred trotting horse owned by Dr. H. M. Hartman, Springs avenue, won the 2.25 trot at the races on last Thursday afternoon at the Hanover Fair, winning a purse of $1000. The horse was driven by Jockey W. L. Bull, of Melfa, Va., and the time was 2.15 1-4. It was necessary to go four heats to decide the race, on account of the judges setting the local horse back for what they called "swerving on the home stretch" in the second heat. Although "Phantom Hale" won the heat and the other drivers raised no objection the judges decision ruled. The horse walked away with the next two heats with ease.

Second Ward the Winners.

The 1922 pennant of the Gettysburg Ward League has been officially awarded to the Second Ward Team, the victors in the contest. Sixteen watch fobs with the word "Champions" engraved on them have been given to Robert Thompson, manager of the Second Ward team to be distributed among the players who brought their team to victory.

CAMPAIGN ISSUES.

John A. McSparran, the Democratic candidate for Governor, is telling the people of the State facts straight from the shoulder. Last week among other things he said:

"Five persons who are reaching out to swing the State's affairs to the machine interests are Pinchot himself; Mrs. Pinchot, both millionaires; George Wharton Pepper, who represents the Pennsylvania railroad first, and the people of Pennsylvania second; David A. Reed, a leading attorney for the 'steel and steal' interests; and finally, Joe Grunday, king of manufacturers, and 'the hardest nut to crack around Harrisburg.' These five will ride in the saddle in Pennsylvania if the present Republican ticket goes through."

McSparran referred to Governor Sproul's statement that he had given to charity the $1500 which he accepted for salary for the term in the State Senate during which he sat as Senator but two days. The Governor's statement was made after McSparran had mentioned the $1500 in connection with the $3000 salary grab Pinchot took after conniving with Sproul to evade the Constitution in its acceptance.

"Giving money to charity is a very commendable practice," Mr. McSparran said, "but honesty and justice to the people demand that if the Governor wants to make donations, he be philanthropic with his own money, instead of reaching into the State Treasury for his philanthropies."

Touching upon financial condition of State McSparran said:

"Each year the directors of any corporation make a statement as to the financial standing of their organization. The heads of the corporation of the State of Pennsylvania have made no such statement for three and a half years.

"Since Mr. Sproul has been in office there has been no official report on any State department.

"There has been far too much centralization of power. Everything centers in Harrisburg. In the small communities there is little left of local self-government. Such action has proved extravagant. Recently a dog killed a goose in an up-State town. The owner of the goose went to the county officials for payment. He was referred to Harrisburg.

"He then filled out lengthy papers and sent them to Harrisburg. He forgot to name the owner of the dog. A special investigator was sent to get that name. He went to the town, 100 miles away, then motored to find the owner of the dog. At last the indemnity of $8 was paid, but it cost about $755 to send the investigator out for the details.

"It is costing millions a year to handle a great centralized system of government that is used to boost a political machine.

"This is the time to allow a minority party to assume the government."

Clean Up Week Proclaimed by Burgess.

Burgess William E. Olinger has issued the following proclamation for a clean up week and to reduce fire hazards from Oct. 2 to 7.

"Let us make our town as clean and orderly as the cleanest homes. Our citizens have the ambition and ability to achieve that ideal, through everybody's co-operation.

"Therefore the week of October 2d, 1922, is hereby designated and proclaimed as the opening week of a thorough campaign to clean up and reduce fire hazards.

"Away with summer's rubbish. Cut the weeds. Banish the plague spots. Clean the yards, the streets and alleys. Clear out the attics and the cellars. Repair everything about your building that needs it. Keep things clean and orderly.

"Our town needs all this cleaning and caretaking right now, for protection against ravages of fire, catastrophe and storm of the coming winter.

"This is everybody's job. Every man and child is invited and expected to help. Let there be no slackers."

Caught by Belt.

Andrew Graham, of Midway, an employee of the Bethlehem Mine Corporation at Bittinger, on last Friday sustained a fracture of the right arm near the wrist, and severe cuts and bruises of the face, head and body, when caught in a belt and thrown from a scaffold to the rocks below, a distance of about five feet. The unfortunate man was engaged in putting dressing on a belt, operating the large well drill, when his arm was caught in the belt and he was thrown from the scaffold. Mr. Graham is 34 years old and has been in his present employment since early in the spring.

The South Mountain Fair

The South Mountain Fair held on Tuesday, Sept. 26, at Conewago Park, near Arendtsville, was a huge success. It is estimated that between 6,000 and 7,000 people were present during the hours of largest attendance in the evening. The one end of the park was devoted to the display of fruits, vegetables, grains, bread, cakes, preserves, art and needle work and the other end of the park to horses, cattle, hogs, and chickens. It was said to have been the very best live stock show seen in this county for many years and the fruit show attracted great attention as exceptionally fine. Secretary of Agriculture Rasmussen spoke during the afternoon and said that ten years ago Adams county was 16th in production of apples and to-day was at the head of the list of the 67 counties in production of apples and highest percentage of apples to tree. Adams county had more chickens per farm than any other county in State and was near the top in production of wheat and corn. He urged standardization of crops and live stock.

Chemical Engine Fund Grows.

The chemical fire engine truck fund has reached a total of $5673 and it is believed that the total will reach the amount needed by the Fire Company. In view of the liberality of our people, the company believes it should buy one of the better types of chemical engines with a good pumping attachment, rather than a cheap type. The expense of electric sirens on engine house has been gone into, with a half dozen stations at various ends of the town from which alarms could be given, and the alarm system with chemical engine will reach a total of $6500 and the fund is but $827 short of the amount needed. 570 residents have responded and 730 are yet to be heard from and it is believed balance of money needed will be quickly raised.

Held for Court.

Mullard McCartney, giving his residence as Denver, Colo., was held under $300 bail for court by Justice of the Peace J. L. Hill on charge of Raymond McConnelly, of New Chester, of the larceny of his pocketbook containing $2.00. McConnelly met McCartney on his way to Hanover and gave him a lift, when engine trouble stopping the car McConnelly gave his attention to it and at finish missed his pocketbook. He had the passenger arrested who admitted taking the pocketbook and money and the $2.00 was returned after the arrest.

William Shirey, a 19 year old boy, of Union Bridge, Md., gave bail in $250 after hearing, in which he was charged with larceny of a $30 raincoat from the store of C. W. Cook, Centre Square. When arrested he had the coat. He went into store and made a small purchase and tried on raincoat and later went back and picked coat up and walked away with it.

The new garage of Peckman and Ott on York street was finished last week so as to be occupied and on Thursday the proprietors moved into their handsome new fire proof building. The building is one story and covers the entire lot, 60 by 180 feet, is constructed of concrete blocks and steel and the front on York street is of granite blocks with three large windows. The front part of the building will be used as an office and show room and will hold three cars without any crowding and the storage room in rear will accommodate about 80 cars. WANTED—Man with car to sell complete line Tires and Tubes. $100 per week and expenses. Sterlingworth Tire Co., 3714 Sterling, East Liverpool, Ohio.

Gettysburg Academy Opens.

Gettysburg Academy opened on Wednesday morning with the largest enrollment in its long and creditable history of ninety-five years.

The field of its patronage has also been largely extended, as students have come from Connecticut, New York, New Jersey, Pennsylvania, Maryland, Virginia, Delaware, Illinois and Ohio; also a number of foreign countries are represented, Japan, Siam, Columbia, South America, Mexico, Cuba, Peru, and Greece.

Seven years ago old Stevens Hall had rooms for twenty-eight boys and two Masters, and often there was room to spare. In the fall of 1916 the fine, new Main Building was completed and occupied. The Academy at once responded to this splendid modern equipment and the building was filled. Then Stevens Hall was taken over, thoroughly renovated, and refurnished and its second and third floors assigned to Academy students, the first floor having been retained as class rooms and drafting rooms for the College Department of Engineering. Last December first it was decided by the Board of Trustees to lease the large, commodious residence belonging to Mr. J. Emory Bair and just opposite the Main building. During the summer this commodious house was renovated and refurnished and will accommodate twenty of the younger boys and two Masters. The Main Building was originally planned, as far as its Dining Hall and class rooms were concerned, for a student body of one hundred. The three dormitories will now afford rooming accommodations for that number and all the roms except one have already been reserved and this will probably be taken within the week.

All the members of last year's teaching staff will return and in addition Mr. Harvey A. Hesser will have charge of the musical interests of the school and Mr. Raymond E. Doyle will have charge of the class in Business Practice.

Glatfelter is Not Unfriendly to Union Labor

An alleged rumor to the effect that S. F. Glatfelter, Democratic nominee for Congress from this district, is unfair to labor, is discounted by the York Federation of Labor. It is claimed that the rumor was circulated in York and Adams counties. Following a meeting of officers and delegates of the Federation, a statement was issued Saturday, September 9th in which it is set forth that the Federation wishes to "deny emphatically the false rumor that is being circulated against S. F. Glatfelter that he is a labor crusher." The Federation statement is that Mr. Glatfelter is an employer of union labor and has been fair to labor since he entered the contracting business a number of years ago.

The Federation then endorsed Mr. Glatfelter as an exemplary citizen, well qualified to fulfill the duties of the high office to which he aspires.

New Tariff a Coffin for Corpse of Prosperity.

The Fordney-McCumber Profiteers' Tariff bill, which is estimated to double the taxation of the American people; that is to say, to add another $4,000,000,000 in the way of taxes, but of which only a few hundred millions will go into the Treasury, the balance into the pockets of the special privilege class, has been signed by the President and is now a law.

This Tariff bill, aptly termed "the coffin for the corpse of prosperity," will fall heaviest upon farmers and working men, by reason of the fact that it will still further curtail the farmers foreign markets, and by destroying what little is left of our foreign trade will greatly reduce production in manufacturing lines as well as in natural industries.

As an example of what will happen, the added tax to sugar it is predicted by the time it reaches the consumer will be as much as $5 per hundred pounds, and instead of 4 1-2 to 5 cents a pound, the price of a few months ago the price will be soon 10 to 11 cents. The cost of living is going to be increased instead of reduced and by act of the Republican Administration.

Will Give Away Seven Million Trees

About 7,000,000 young forest trees will be distributed free to land owners in Pennsylvania by the Department of Forestry this fall and next spring. An inventory of the Department's nurseries shows there are more than 5,000,00 evergreens ready and about 1,500,000 hardwood trees ready for planting.

Among the evergreens to be given away free by the Department are large quantities of pitch pine, Scotch Norway spruce, and white pine. The leading kinds of hardwood trees will be white ash, green ash, rock oak, pine, Japanese, red and black pine, red oak, and American elm.

The trees are from five to twelve inches in height, and will be distributed to individuals who will plant them for wood production.

The session of Congress adjourned a day or two ago demonstrated the fact that the Republican party is without leaders having initiative. The race of Republican statesmen are apparently dead. Politicians are in the saddle. When real legislation for new issues is wanted the Democratic party is the only party that has demonstrated its initiative ability giving from 1912 to 1920 more constructive legislation than the Republican party had given in fifty years. A bonus law should not be permitted to be a political bone of contention and it could be prevented. There should be no citizen in a Democracy with privileges that only a class can enjoy. Pensions for teachers and pensions for this and that class of officials and workers create privileged classes. This could all be prevented by insurance against poverty of old age. The United States Government should by law be allowed to insure every citizen against poverty of old age. A rate could be charged for such insurance which at 65 or 70 would give every insured citizen a weekly or monthly income. This would be a democratic way without special privilege to any one, a preferential rate could be given soldiers, but the insurance would be paid for and old age would greater enjoy what its youth and manhood had provided.

POLITICIANS BONUS DEAD.

While the veto of President Harding of the Bonus Bill was sustained in the Senate and is dead by a narrow margin of four votes in that body the House by a vote of 358 to 54 voted to disapprove the veto. President Harding stated clearly that he would veto the bill unles it was accompanied by legislation to show how to raise the money. The politicians immediately elaborately showed how they wanted to love the soldier vote by forcing through a bil, not on its merits and not by showing how the billions of dollars it would cost could be raised. The politicians proceded to force through the bill in order to demonstrate to the soldier voters the congressmen and senators they should vote for this year, while this political gang knew absolutely that what they were doing would be vetoed. To make sure of the veto the bill was stripped of all suggestions of how to raise the money. They knew a veto by the President was going to save the country from the heavy burden of new taxes to provide for the bonus, so that each and every shameless congressman and senator could help buy his re-election with the people's money by saying to the constituent soldier vote, "I voted for you now vote for me."

ANTI-BONUS LEAGUE.

The Ex-Service Men's Anti-Bonus League recently formed in New York City had the following to say in resolutions adoped:

"It is apparent, that unless strong and effective opposition is at once presented, an unjust burden of taxation will inevitably be imposed upon the people of our country by the next Congress or one of its early successors. We, the ablebodied ex-service ourselves and voicing the known sentiments of thousands of our former comrades, desiring that the American public may know the truth as we men here assembled speaking for know it, shorn of all maudlin and foolish statement, do here and now for the reasons stated hereunder, place ourselves on record as being unalterably opposed to any proposition to bonus or pension, now or at any future time, any soldier who came out of the war mentally and physically uninjured."

Some of the reasons by the veterans for this stand follow:

"We who served know that instead of being injured by war service 90 per cent. of the men who were not wounded, gassed or shell-shocked, came out of the army far better equipped physically and mentally to fight the battles of civilian life than when they went in.

"By admissions made by service comrades in greater or less numbers direct to men here assembled, we know it to be a fact that if the same percentage held good throughout the entire army, hundreds of thousands of soldiers earned more net money while in the army than ever before.

"From our personal know dge of the habits, temperaments an[illegible] na[illegible]tions of our comrades in arms w[illegible] know that to a large percentage of them a cash present of any sum of money would mean, at best, but a short period of release from labor and a royal god time while the money lasted."

To "give effective voice to the sentiments herein pronounced," the resolutions say in closing, "and that we and our former comrades of the same mind may stand before our countrymen and the world in a class separate and apart from those of us who seek a cash reward for acts and services that have no cash value, we men here assembled immediately proceed with the organization of an association to be known as 'The Ex-Service Men's Anti-Bonus League' whose purpose and functions shall be:

"To first. last and all the time oppose any Government grant or gratuity to any person who served in the armed forces of the United States in the late war, who, at the time of his discharge, was physically and mentally uninjured as a result of such service.

"To aid, foster and encourage in every way possible legislation providing for the proper care, proper pensions and proper respect for every man who came out of the war in any way physically or mentally impaired as a result of his war service."

HOUSEWORK A BURDEN.

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Gettysburg women. Ask your neighbor. Read what Mrs. Chas. Hunter, 127 W. High St., Gettysburg, says: "I was never bothered in a serious way with kidney trouble, but a number of years ago my kidneys were not in proper condition. Sharp pains darted through my back and this trouble made housework very hard to take care of. My back ached most of the time but the pains were worse in the morning, directly after getting up. My troubles were many and my sight was blurred by tiny spots and specks and I felt tired and was inclined to be nervous. My kidneys acted irregularly and as I had seen Doan's Kidney Pills so highly recommended, I purchased two boxes of them at the People's Drug Store. It took but two boxes of Doan's Kidney Pills to drive all these signs of kidney complaint from me."

Haines' Policy Still Holds

Haines, the Shoe Wizard Prices in many cases below what you can replace the same shoe for today

Two years ago we took all shoes that sold for $5.98, $6.98, $7.98, $8.98, and at one stroke made the price $4.98, costing us over hundred thousand in reduction.

Mr. Haines last January, thinking prices would come down made another drop of $1.00, making the highest price $3.98, against the advice of his store managers and manufacturers.

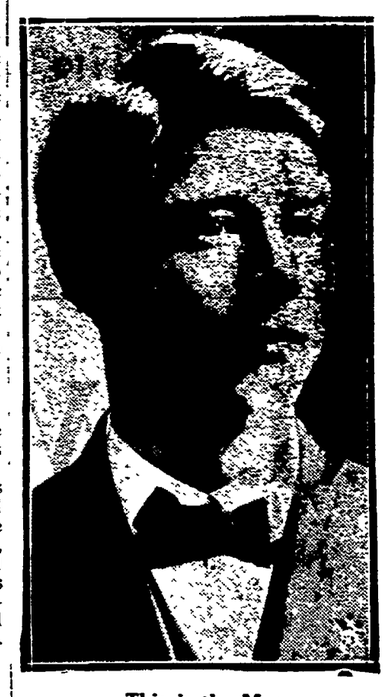

Instead of prices dropping they have gone up 10 to 35c and (looks like going still higher), putting us in a bad way, for in many instances our profits no not average over 12c a pair net. Yet against this glo my outlook, Mr. Mahlon N. Haines has decided

$3.98 to be the highest price

and will stand till January 1, 1923, in all of Haines, The Shoe Wizard Stores, over Pennsylvania, Maryland, Virginia and West Virginia.
